KPI Explanation	
Tardy	Late arrival of your shift is considered as "TARDY", you've to cover those late hours and tardy will still be marked.
Dependability	approved or unapproved call outs. Only "1" call out in a month can be covered to avoid proration. More than one call out will result in proration for all the call out. The callout needs to be covered in the same week.
QA Scores	minimum of 80% overall score for the month is required to achieve minimum QA incentive. Based on 3 calls/ week evaluation.
Production Hours	will be calculated at the rate of scheduled hours (does not include pre-approved leaves). And will be separated from rest of the KPI.
Non-productive status	Manual Dial+Waiting for Agent to dispose status should not exceed 5 minutes per day else it will be deducted from respective days required production time along with disciplinary action if deemed necessary.

Fraudulent Sales	Action will be taken per Zero Tolerance policy. The offender will lose all the KPI Incentive + Sales Commission for the Month.
-------------------------	--

Incentive Calculation	If score are missing for any of the above mentioned KPI(s) - The payout for that KPI will be considered 100%. E.g. weekly QA score will be marked 100% scores for missing week.
------------------------------	---

Proration	Any leave or callout other than pre-approved Annual Leave will prorate the overall achieved Incentive /scheduled days. (Production Hours KPI is not the part of it)
	Approved AL/SL Leave applied before time will have no impact on the Basic Salary. If your leave quota is available.
	minimum of 10 working days are required to qualify for incentives.
	Unpaid Leaves will have an impact on both Basic Salary & Incentive proration.

PIP	Failure to meet client's expectation to remain profitable will result in PIP.
	If already on PIP then the SE will be given one more week.
	If an SE improves the PIP level will remain the same for another week until agent stays profitable for another week and sustains.
	In case of no vote of confidence by the client and staying unprofitable will result in termination.
Overtime	OT is to be paid only if scheduled hours are completed.

Campaign of the Month	If you maintain 10% ADT transfer rate along with the no invalid transfer, then your RGU earned incentive will be multiplied with the maintained percentage if the percentage is 10% and above.
	For this month "Helping Hand" and "My Benefit America" RGU will be paid by Rs.400/- per RGU.
